

Quality Policy

(Australian ISO9001:2015 sites)

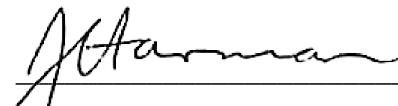

EDL is a leading global producer of sustainable distributed energy.

This Quality Policy has the following objectives:

- EDL will establish, maintain and review procedures, practices, measurable objectives and targets for maintenance of a quality program
- EDL will maintain a quality management system to meet requirements of ISO 9001 for all accredited EDL Australian sites.
- EDL will aim to comply with applicable legal and other business obligations for the activities it performs
- EDL will seek to continually improve the quality management system through periodic management reviews.
- EDL will ensure that customers' needs and expectations are determined and fulfilled with the aim of enhancing customer satisfaction

The Quality Policy and overall Quality Management System are reviewed periodically by the Executive Management Team to ensure it complies with the requirements of AS/NZS ISO 9001:2015.

All staff shall ensure that the Quality Policy and information within QMS is communicated and recognized at appropriate levels throughout the organisation.

James Harman, Chief Executive Officer

Issued: November 2018 (Review Date: November 2019)

Scope: This policy applies to the Australian sites as outlined in the ISO9001 scope of certification.
