

Title: Operations Supervisor Moranbah / Grosvenor
Location: Moranbah, Queensland, Australia
Function: CE Operations
Details: Full time, Permanent

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

The Operations Supervisor Moranbah Grosvenor will be responsible for working in a hands-on capacity supervising a small, multi-skilled team responsible for the operation and maintenance of the Moranbah and Grosvenor power stations. The successful candidate will need to reside in Moranbah – FIFO / DIDO options are not available for this role.

Key Responsibilities

- Lead and motivate a team of multi-skilled Operator/Maintainers involved in all aspects of maintaining the power plant at EDL's Moranbah and Grosvenor power stations
- Implement the WCMG customer management plan to exceed customer expectations
- Maintain operational compliance with approvals, legislation and contracts
- Deliver budgeted production targets for Moranbah and Grosvenor power stations
- Manage critical and statutory maintenance in line with company policies and procedures
- Manage change in accordance with EDL's systems and process working in consultation with group Engineering and Asset Management functions
- Develop and manage site budgets for direct, indirect and capital costs
- Manage maintenance scheduling to optimise profitability
- Maintain and control inventory and acquisitions in line with company policies and procedures
- Drive safety leadership through setting clear expectations for measurable safety behaviours
- Maintain a culture of reporting and continuous improvement of risk management tools used on site
- Demonstrate visible safety leadership by conducting safety verifications on-site, facilitating safety conversations and sharing safety learnings from customers and suppliers
- Support and comply with Company policies and procedures as advised and documented in the Company's employment policies as amended from time to time and as directed by Managers
- In addition to the duties set out above, the Operations Supervisor may be expected to perform other duties as assigned from time to time by the Company appropriate to the level and responsibility of the position as required.

Qualifications and Experience

- Mechanical or Electrical trade (preferred)
- Sound understanding of health and safety, environmental and industrial relations requirements
- Previous supervisory experience and/or supervisory/management style training

Experience in the following will also be an advantage:

- Experience with financial planning, budgeting and accounting functions

- Experience managing and delivering projects
- Experience with data and analytics

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
