Title: Southeast Operations Supervisor (Texas, Georgia)

Location: San Antonio, Texas, United States

Function: NA Operations

Details: Permanent, Full Time

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

Reporting to the East Coast Regional Operations Manager, the Southeast Operations Supervisor will be responsible for working in a hands-on capacity to manage, lead and develop the power stations and employees in the assigned region. The position of Operations Supervisor can be based at Covel, Taylor County or Pecan Row. From the base location, the successful applicant will be required to travel to all sites within the region on a regular basis.

Key Responsibilities
- Manage multiple Power Station locations in the Southeast region (Covel, TX; Taylor County, GA; and Pecan Row, GA)
- Lead and motivate a team of Operators involved in all aspects of maintaining the Power Stations
- Support the operation of the Power Stations following correct processes and protocols
- Support maintenance strategies in conjunction with the technical services department Power Stations
- Responsible for interfacing with the landfill partner at the Power Stations
- Responsible for the implementation and support of the Company Health, Safety and Environmental Polices and Procedures at the Power Stations
- Ensure compliance of environmental and regulatory regulations, rules, and requirements, along with response roles to incidents at the Power Stations
- Operate gas fuelled power plant, spark ignition engines, and all associated power generation and Gas field equipment
- Operate advanced instrumentation and process control systems
- Perform regular inspection and maintenance of fixed plant, engines, and associated equipment
- Undertake electrical and mechanical fault-finding, repairs, and reporting
- Carry out routine housekeeping duties
- Schedule daily activities, delegate work tasks to team members and supervise the completion and quality of the tasks
- Responsible to monitor the site employee(s) performance, tardiness, timesheets, and overtime
- A working position, the Operations Supervisor handles any/all work tasks as needed at the sites
- Other duties as assigned from time to time by the Company

Qualifications and Experience
- Prior supervisory/ management experience in a manufacturing environment, preferably with reciprocating engines
- Experience with setting and adhering to sire budgets and understanding of basic accounting principles
- Experience with setting site maintenance schedules, preferably with both gas field, gas plant and engines

- Experience adhering to Health and Safety responsibilities and requirements
- Experience with environmental and site compliance regulations
- Ability to lead, manage and develop the operations team
- Able to work under pressure with minimal frustrations
- Good organizing skills. Able to prioritize tasks.
- Accept and make recommendations for improvements
- Communicate accurately with employees, supervisors, and managers. High level of analytical and trouble shooting skills in both generation plant, gas plant, and gas field
- Proficient using computers and monitoring equipment to measure, record and adjust within operating parameters
- Ability to work autonomously in a multi-skilled work team environment
- Reliable, committed and motivated to achieving Company and team goals and objectives
- Ability to work autonomously in remote locations environments
- Willingness and ability to travel to all sites within the region on a regular basis

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
