

Title: Analyst (Financial Planning and Analysis)
Location: Brisbane, Australia
Function: Finance & Accounting
Details: Permanent, Full-Time

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

Key areas of responsibility

- Maintaining and updating group financial models for annual budget, medium term plan (MTP, a 5 year period) and impairment testing processes
- Providing support to wider EDL business to assist with development of budget and MTP assumptions
- Assist with presentation of budget and MTP results to key stakeholders across the business and ELT
- Maintaining and updating modelling for contracted revenues to tracking adherence with Treasury limits and presentation of results to sub-committee
- Preparation of aggregated financial model and information memorandums to be distributed to potential financiers and tendering of debt facilities
- Ad hoc financial reporting for shareholders
- Any other duties appropriate to the level and responsibility of the position as required

Person specification

- Advanced financial modelling (DCF experience considered a bonus)
- Strong written and verbal communication skills
- A self-starter who is able to work autonomously
- Calm demeanour and ability to work through complexity
- A critical thinker who is able to test and challenge inputs and pick up potential errors
- Ability to establish strong working relationships with key stakeholders across the business (including different geographical locations – offices in UK and US)
- A dedicated hard worker who is able to flex with the work load demands to achieve key deadlines
- Somebody with a track record of implementing continuous improvement to models and process
- High attention to detail
- A quick learner who is interested in the electricity and gas industries, the green transition and developing their knowledge base

Qualifications and experience

- Advanced financial modelling using MS Excel
- Experienced user of MS PowerPoint
- Bachelor's degree in a finance related discipline
- Prior experience (three to five years) in financial analyst or group management accounting environment with focus on detailed financial modelling across multiple businesses units and/or sites
- A good working knowledge of accounting concepts is required
- Understanding of business valuation and DCF concepts is a bonus

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
