

Title: Project Technical Manager
Location: Perth, Australia
Function: Project Delivery
Details: Full-Time, Permanent

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

Reporting to the Project Manager, EDL is seeking a suitably qualified Project Technical Manager to lead the technical aspect of an exciting new hybrid renewable energy project.

Key Responsibilities

- Working alongside the EDL Project Manager, you will be responsible for the overall delivery of the design and technical aspects of hybrid renewable power station projects.
- Manage a team of project engineers, consultants and suppliers to develop and scope the project during development and take the project through the execution phase to successful completion.
- Ensure smooth and efficient communication between in-house customers, engineering teams, consultants, contractor design teams and equipment suppliers
- Responsible for quality assurance and safety in design.
- Track progress and support project controls personnel in reporting
- Actively ensure own health and safety and the health and safety of others through understanding and implementing workplace health and safety obligations.

Qualifications and Experience

- Degree qualified engineer or equivalent
- 10 years' experience in delivery of projects and design management
- Previous experience in a similar role delivering power / energy industry projects
- General knowledge of power station design and commissioning
- Experience with hybrid power system (solar, BESS) highly regarded.
- Hold a strong focus on safety in design and quality assurance
- Excellent written and verbal communication skills.
- Experience in providing customer service, service delivery and conflict resolution.
- Leadership and proactive engagement in health, safety and environmental requirements.
- Ability to resolve problems with analytical thinking.

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.

To apply, please send your current resume and cover letter to hrvacancies@edlenergy.com, quoting Project Technical Manager in the subject line.
