

Title: ERP Integration Manager (North America)
Location: North America
Function: Oracle Transformation Project
Details: Full time, Temporary (18 – 24 Months)

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

Reporting to the Project Director (ERP Transformation), the ERP Integration Manager (North America) will support the adoption of global standard processes, drive harmonisation of processes across the North American business and manage key stakeholders, including Solution Owners, Business Process Owners and SME's.

Key Responsibilities

- Responsible for championing successful delivery of cloud solutions portfolio through effective project leadership and thought leadership to help internal stakeholders navigate their journey to the cloud
- Conducts complex needs assessment and requirements gathering directly with stakeholders in North America on business impacts - people, process, technology arising as a result of Oracle Cloud solution implementation
- Manage project information flow and task completion for the EDL North American business
- Provide guidance and coaching to business stakeholders on capabilities
- Monitor project delivery execution and ensure all obligations are met
- Work with Project Director and provide input to the project plan and work breakdown structure and assist in managing timelines and milestones to ensure timely completion of all deliverables
- Liaising with stakeholders (including suppliers/vendors) to resolve issues

Qualifications and Experience

- Bachelor's degree in relevant specialty (IT, Finance, HR, Procurement, Supply Chain, Business) preferred
- 10+ years of experience in conducting ERP implementations
- 2+ years of experience in implementing and rolling out Oracle Cloud Applications
- Experience in implementation of Oracle Cloud ERP/HCM/SCM required
- Demonstrated sufficient depth and breadth of technical knowledge to be individually responsible for the design and scope of deliverables within a field of expertise.
- Ability to fully utilize Microsoft Office (Word, Excel, PowerPoint)
- Ability to adapt to a new project quickly with a can-do, jump-right-in attitude
- Demonstrated ability to perform/drive resolution of problems for system integrations

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
