

Title: Principal Commercial Analyst
Location: Perth, Australia
Function: Remote Energy Australia
Details: Full time, Permanent

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

Reporting to the Commercial Manager, the Principal Commercial Analyst will Provide commercial and financial support to the Commercial team, and will support other business units and advise of commercial obligations as required.

Key Responsibilities

- Lead/support the management of the existing contract suite including power purchase agreements, gas agreements, connection agreements, electricity market agreements and leases to ensure EDL is abiding by its contractual obligations to its principle customers.
- Lead/support interactions with customers and major suppliers as required to address contractual issues and/or requirements.
- Lead/support the implementation of new contractual arrangements to support the existing assets.
- Gain a thorough knowledge of all sales contract documentation including project deeds and major supplier contracts.
- Lead/support the development of the processes and systems required for compliance with relevant energy market compliance and settlements.

Qualifications and Experience

- Experience in a commercial role
- Experience in the power generation industry
- Experience in the WA Electricity Market, NEM or NT electricity market
- Tertiary qualification in a finance or energy related discipline, preferably accounting, economics, or engineering

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
