

**Title:** Operator Maintainer – West Kimberley  
**Location:** Broome, Australia  
**Function:** RE WA Operations  
**Roster:** 8 days on 6 days off

---

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

Reporting to the Mechanical Operations Supervisor, this role is to Operate and Maintain the WKPP Power Facilities, including gas and diesel power generation equipment at various remote power stations – Broome, Derby, Looma, Fitzroy and Halls Creek and associated facilities (low pressure pipelines).

**Key responsibilities:**

- Maintain and operate a range of Caterpillar diesel and gas engine generators and Cummins diesel engine generators. Eg. CAT3520C, CAT3516C and Cummins DGFB etc.
- Operate and maintain associated auxiliary plant and equipment.
- Perform regular inspection and maintenance of above equipment to a high standard.
- Monitor the process to ensure optimum output.
- Carry out routine housekeeping duties.
- Utilise the Maintenance Management and Quality Assurance Systems as part of the daily functions
- Actively ensure own health and safety and the safety of others through understanding and implementing workplace health and safety obligations.
- Support and comply with Company policies and procedures as advised and documented in the Company's employment policies as amended from time to time and as directed by Managers/Supervisors.
- In addition to the duties set out above, the Operator Maintainer may be expected to perform other duties as assigned from time to time by the Company.

**Qualifications and Experience:**

- Mechanical trade or certificate qualifications essential.
- Sound understanding of HSEQ processes
- Computer literacy
- Experience with Maintenance Management systems i.e PRONTO/SAP
- First Aid Certificate desirable.
- Current drivers licence is essential.
- Ability to pass a standard security assessment and a pre-employment medical.
- Experience in Power generation or heavy industry would be desirable

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.

Successful applicants will be required to undergo medical and background screening prior to commencement with EDL.
