

Title: Senior Electrical Engineer
Location: Brisbane, Australia
Function: Engineering
Details: Full time, Permanent

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

Reporting to the Lead Electrical Engineer, the Senior Electrical Engineer, provides Electrical engineering leadership to ensure EDL is in compliance with Legislative, technical and HSE requirements to minimise risk to the business, its employees and key stakeholders.

Key Responsibilities:

- Electrical engineering leadership to ensure EDL is in compliance with Legislative, technical and HSE requirements to minimise risk to the business, its employees and key stakeholders.
- Electrical engineering support for the development and execution of projects to support the growth objectives of the business.
- Provide technical expertise and support to EDL operations to achieve safety, revenue, performance and reliability objectives.
- Positive and proactive engagement with EDL's customers to maintain a high level of customer satisfaction
- Support for the development of graduate and junior level engineers
- Actively promote and ensure own health and safety and the health and safety of others through understanding and implementing workplace health and safety obligations;
- Ensure that all designated duties are successfully carried out in accordance with safety, technical and legislative policies and procedures
- Practice ethically and responsibly in line with Engineers Australia code of ethics
- Provide mentoring to graduate electrical engineers.
- Provide engineering support to business development and projects which balances cost, risk and performance.

Qualifications and Experience:

- Formal engineering qualifications at engineering degree level in Electrical engineering with a minimum of 10 years experience following graduation;
- Member of the Institution of Engineers, Australia, CPEng; and
- Member of the Board of Professional Engineers Queensland, RPEQ
- Experience in industrial power generation

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
