

**Title:** Operator Maintainer - Electrical  
**Location:** New South Wales, Australia  
**Function:** CE Operations  
**Details:** Permanent Full-Time

---

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

Reporting to the Operations Supervisor, the Operator / Maintainer is responsible for all aspects of operating and maintaining gas fields, gas plants and power plants at our Lucas Heights Landfill Gas Power Station.

**Key Responsibilities will include:**

- Operate gas fuelled power plant, 1000kW spark ignition engines, and all associated power generation equipment.
- Operate advanced instrumentation and process control systems.
- Perform regular inspection and maintenance of fixed plant, engines, gas fields and associated equipment.
- Undertake electrical and mechanical fault-finding, repairs and reporting.
- Monitor the process to ensure optimum output.
- Carry out routine housekeeping duties.
- Utilize the Maintenance Management and Quality Assurance Systems as part of the daily functions.

**Qualifications and Experience:**

- Experience in maintaining, fault finding and operating power generation equipment
- Electrical license (essential)
- First Aid certificate desirable
- Current drivers license is essential

***Experience in the following will also be an advantage:***

- PLC programming and troubleshooting
- High voltage electrical
- Gas engine experience
- Call out duties and roster work

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
