

Title: Commercial Analyst
Location: Brisbane, Australia
Function: Clean Energy Australia
Details: Permanent Full-Time

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

This is an exciting opportunity to join EDL's Clean Energy Commercial Team. The role will manage, monitor and support a portfolio of projects/contracts with an Operational focus to add value to the Clean Energy business. This position is based in our head office in Brisbane, but offers some flexibility to work from home 1 to 2 days per week.

Key Responsibilities:

- Support the management of the existing contract suite including power purchase agreements, gas agreements, and leases to ensure EDL is abiding by its contractual obligations to its principal customers.
- Ownership of a defined suite of contracts (by region or nature), but also expected to take an interest in adjacent/complimentary projects as required.
- Support interactions with customers to ensure EDL's position is protected and to address contractual issues and/or requirements.
- Identify and support to deliver opportunities to maximize value from existing contracts and manage compliance to the requirements of the agreements.
- Support the implementation of new contractual arrangements to support the existing assets.
- Ensure compliance with various licenses and statutory requirements.
- Work closely with the Australian business development team to deliver growth opportunities while managing commercial risks.
- Provide commercial support during the delivery of new projects and project expansions.
- Support the management of the CE Commercial Contracts Management System.
- Contribute to the operations and growth of the company.
- Be an active agent of change.

Person Specific:

- Strong time management and organisational skills.
- Ability to work un-supervised.
- Ability to support cross-functional teams to achieve commercial outcomes.
- Ability to interpret complex commercial contracts.
- Demonstrated initiative.
- Accurate and attentive to detail.
- Flexible but focused on the quality of work.
- Effective written and verbal communication skills.
- Team oriented.

Qualifications and Experience:

- Strong computer literacy essential, including Word and PowerPoint.
- Strong analytical skills using Microsoft Excel.
- Tertiary qualifications in law, commerce or a related field.
- 2 years' experience in a commercial role desirable.
- Experience in the NEM, electricity markets or power generation industry desirable.

To apply, please send your current resume and cover letter, referencing VAC0390 in the subject line to hrvacancies@edlenergy.com.

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
