

Title: Operator/Maintainer – QLD WCMG
Location: Bowen Basin, QLD
Function: WCMG Queensland
Details: Temporary – Full time (12 month contract)

EDL owns and operates a global portfolio of power stations in Australia, North America and Europe. Our vision is to be the leading global producer of sustainable distributed energy. At EDL, we are playing a key role in the world's transition from traditional energy sources to decarbonised solutions.

The Operator/Maintainer is responsible for ensuring efficient operations of WCMG power stations within the Bowen Basin area. This position is FIFO (fly in, fly out) to Bowen Basin on a roster of 8 days on and 6 days off. EDL will provide accommodation to the successful candidate during their time on shift in Bowen Basin. This is a 12 month contract.

Key Areas of Responsibility:

- Maintain and operate Caterpillar 3520 and Jenbacher J620 CMM gas reciprocating engines.
- Operate and maintain gas conditioning and associated ancillary plant and equipment.
- Operate advanced instrumentation and process control systems.
- Perform regular inspection and maintenance of above equipment to a high standard.
- Monitor the process to ensure optimum output.
- Carry out routine housekeeping duties.
- Utilise the Maintenance Management and Quality Assurance Systems as part of the daily functions.
- Actively ensure own health and safety and the health and safety of others through understanding and implementing workplace health and safety obligations.
- Support and comply with Company policies and procedures as advised and documented in the Company's employment policies as amended from time to time and as directed by Managers/Supervisors.
- Any other duties appropriate to the level and responsibility of the position as required.

Person Specific:

- Demonstrated ability to work unsupervised in remote environments
- Troubleshooting and basic fault finding skills
- Strong working knowledge of power system and control circuitry
- Knowledge and understanding of process operations in power generation plants
- Demonstrated ability to work safely in a small team environment

Qualifications and Experience:

- Mechanical background/certification is preferred, but those with an Electrical trade qualification will also be considered.
- Experience in operating and maintaining large reciprocating engines.
- First Aid Certificate desirable.

- Current drivers license is essential.

EDL is committed to creating a diverse and inclusive environment and is proud to be an equal opportunity employer.
